Subject: Microsoft Settlement - Don't allow this to happen!

I am shocked that the DOJ can possibly believe that this "settlement" is good for anyone except for Microsoft.

I'll put it this way - how can you say that Microsoft is a monopoly - and then allow them to expand the monopoly by giving them a bigger hold on the education market? Especially when they give away products that cost them NOTHING to make!

I could go on and on, but nobody'd want to read it. I think you get my point.

I'm against the current "settlement"!!!!!!!!!!
